Google Ads - Display Ads / YouTube Ads

Targeting "Topics"

Nachfolgend finden Sie eine Liste von Themen für die Ausrichtung von Displayanzeigen und YouTube-Anzeigen:

Thematische Targeting mit Google Ads

Themen Targeting (Topic Targeting) ist eine von vielen Optionen zur Zielgruppenausrichtung im Bereich Displayanzeigen (Google Display Netzwerk (GDN)) & Videoanzeigen (YouTube):

1. Themen (Online Marketing, BMW, Klimawandel)
2. Geographische Ausrichtung (Berlin, Bayreuth, Südtirol)
3. Soziodemografische Ausrichtung (Alter, Geschlecht)
4. Nutzer-Interessen (Disruption, Hochzeit, Umzug)
5. Placements (Webseiten, Apps, Youtube Kanäle)
6. Schlagwörter (Fast Food, Content Agentur)
7. Geräte (Mobile Geräte, iPhone11)

Wie funktioniert themenbezogenes Targeting (Topic Targeting)?

Wenn jemand in Ihrer Zielregion eine Webseite in einer der von Ihnen gewählten Topic-Kategorien besucht, können Ihre Display-Anzeigen auf dieser Seite ausgespielt werden. Das Targeting basiert auf dem Inhalt der Seite oder Website, die die Person gerade besucht.

Wann ist Topic Targeting sinnvoll?

Die kontextuelle Zielgruppenausrichtung nach Themen funktioniert am besten, wenn Ihr Produkt oder Ihre Dienstleistung vor dem Kauf eine ausgiebige Recherche erfordert. Dabei ist es wichtig, dass Ihr Unternehmen auf der Shortlist der Unternehmen steht, um während der "Forschungsphase" seiner Kaufentscheidung anzurufen, und Topic Targeting hilft dabei.

Topic Targeting eignet sich auch gut, um das Bewusstsein für Ihre Marke, Produkte oder Dienstleistungen zu erhöhen. Als Beispiel haben Sie vielleicht einen neuen Service, von dem noch nicht jeder weiß, wie eine "Hypnose zur Verbesserung Ihres Golfschwungs". Vielleicht möchten Sie Ihre Anzeigen auf das Thema "Sport / Golf" ausrichten?
